### BD\_SW\_2B\_02 2 button dash mode switches for Ducati

This switch is intended to replace the standard left hand handlebar switches on Ducati 848/1098/1198/Desmosedici track bikes which no longer require the light and turn signal controls, yet still require the use of the dash MODE functions.

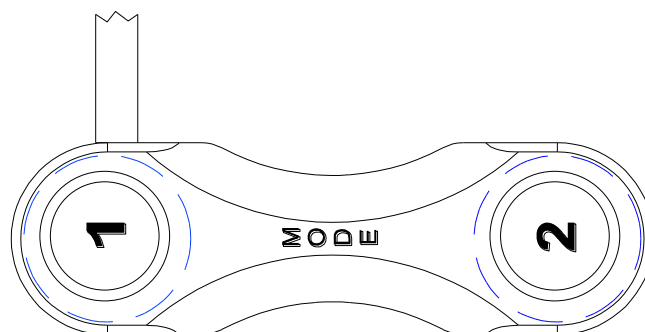

The aluminium assembly has been designed ultra-slim and encompasses 2 black momentary switches.

No modification of the bike wiring is necessary, this kit plugs directly into the 8 way connector of the standard loom.

#### Function:

1	Black	Mode - 1	Momentary
2	Black	Mode - 2	Momentary

#### Electrical / Mechanical Characteristics

Wire..... Type 55 / 24
